AgVenture D&M hires Jarrod Woley as AgVenture Yield Specialist

KENTLAND, IN (April 25, 2013) – AgVenture D&M has announced hiring Jarrod Woley of Paducah, Kentucky to serve Western Kentucky and Western Tennessee farmers as AgVenture Yield Specialist. Woley brings with him more than twenty years of professional experience in management, logistics, sales and service. He will provide farmers across the region with access to AgVenture® brand seed products, and with year-round professional support that helps customers realize more profit from every field.

For the past seven years, Woley worked for Whayne Supply Company, the regional Caterpillar equipment dealership where he served as agri specialist and district sales representative. He has also worked for United Parcel Service and with the Paducah & Louisville Railway.

AgVenture D&M owner, Mike Davis said, “We are very pleased to put Jarrod’s professional experience to work in this region. Our products are specifically adapted and selected for this area’s growing environment. With access to cutting edge genetics and technologies, and with solid performance to back it up, we’re confident in Jarrod’s ability to help our customers reach new goals in yield and profitability.”

Woley said, “I really believe in this company and their dedication to their customers’ profitability. This is so much more than signing an order for seed. We work with each customer to help them define and set new goals for production, and then we support them with tools and techniques throughout the year that help them accomplish greater profitability. In working with farmers, trust, integrity and honesty are the qualities that matter. That’s what this company is about and I look forward to putting that to work for my customers.”

Jarrod and his wife, Christy, have two sons, Hunter and Mason. They reside in Paducah.

AgVenture, Inc. is the nation’s largest network of independently owned regional seed companies. Based in Kentland, Indiana, AgVenture provides this growing network of independently owned and managed seed business owners with seed products meeting exacting standards for quality, together with leading-edge genetics and technology. Since 1983, this unique marketing approach has allowed each individual company to match the hybrids it sells to the specific needs of the geographical area it serves. Combined with professional seed representation at a local level, AgVenture strives to help every grower realize more profit from every field.
